IV NEWSLETTER OPERATIONAL CONDITIONS OF HUMANITARIAN ORGANIZATIONS IN PAHNAL

The IV Operational Conditions newsletter of the National Humanitarian Action Platform is an instrument of collective construction of Venezuelan organizations that documents the challenges and opportunities of the humanitarian response in Venezuela.

The 15 organizations participating in this survey represent 944 places where projects are implemented, or humanitarian aid is distributed, with different territorial extension scopes.

The questionnaire allows for more than one answer option.

November 2022

THOSE WE ASSIST

You may select more than one option. 14.3% Robberies, assaults, 71,4% 64.3% thefts Boys and girls Sexual left behind harassment 71.4% 64,3% Psycho-emotional Abusive disorders partners 28,6% 57,1% 71,4% Prostitution Abandonment Domestic of the elderly violence 50% Homelessness 35.7% Presence of delinguent Abandoned 7,1% children groups 21.4% Presence 42.9% 35,7% of armed School groups Suicide 21.4% dropouts 14.3% Child 28.6% Others labor Trafficking and sex slavery

OPERATIONAL CONTINUITY

On aspects that enable operational continuity:

For more info visit pahnal.org

In the last year, funding for the humanitarian aid programs implemented by your organization.

Greatly diminished

- Somewhat diminished
- Remained unchanged
 Has increased somewhat
- 21,4 28,6 % 35,7 14,3

In the last year, has your organization suspended humanitarian aid operations?

Are the funds from the projects carried out in the international alliance provided a sufficient margin to cover operating costs, overhead, taxes, and security expenses?

COORDINATION

According to last year, which of the of the following actors has your organization experienced an improvement in relations to coordination of humanitarian activities. You may choose more than one answer.

The coordination mechanisms by the international agencies have been, according to the already stablished ones.

In terms of the execution of projects with agencies and international NG0s, the risks faced in the implementation (logistic, financial, sanitary, legal.) are shared equally by both parties (both national and international) when working in an alliance?

LOCALIZATION

Currently, do you consider that your organization has the same opportunities for dialogue and access to funds as the international organizations with which you implement projects?

In relation to the visibility of your work, do you consider that the international organizations and agencies give due credit to the role their local partners in the communities and reports with donors, authorities, other agencies?

We thank the contribution from the organizations of PAHNAL on this work and to Susana Raffalli Magdymar Leon, Nirma Hernandez, and Jo D' Elia For their participation in research 's design.
